<i>Treasurer</i>	<i>Steve Walker</i>	<i>262-2688</i>

September 5, 1991

Dear IBM Midrange User Group Member,

As a service to our members, I have enclosed a copy of an RSVP invitation from Lansa for a demonstration on their Case product at IBM on September 11. As you will notice, there are two sessions at 9:00 AM and 2:00 PM.

You should have already received a notice of our monthly user group meeting for the same day at 11:30 AM at Pancho Villas on Highland Drive. Our guest speaker is Tom Barberi of KALL Radio. Please RSVP this meeting also since we need to provide Pancho Villa's with an accurate count of attendees. Please RSVP to Sharon Maass at 264-2612 if you have not already done so.

While both of these events are the same day, the times are staggered and you should be able to attend both if you desire.

Thank you, and hope to see you at our luncheon.

Sincerely,

Sharon L. Maass  
User Group President
