# IBM Mid-Range Computer Users Group

President: Alan Judson - 763-6650   Vice President: Steve Walker - 264-1442
Secretary: Kirk Nacey - 975-7477   Treasurer: David Carpenter - 264-2660

JUNE MEETING

Our June meeting will be held Wednesday, June 9, 1993 at 11:00 a.m. at the Murray City Offices. Kim Pilger from IBM will be speaking.

Kim joined IBM in 1993 as a marketing representative in Santa Barbara, CA. Her primary responsibilities were supporting customers in mfg. and higher ed. In 1990, she joined IBM's education organization in atlanta, GA where she focused on developing and delivering education to the IBM field force. Key subjects included, implementing change in an organization and customer satisfaction.

Kim came to Utah in February. She oversees the marketing support of customers throughout Utah. As the complementary resources manager for the intermountain trading area, she coordinates the effective use of marketing channels to supplement the direct sales force in NV, ID, MT, and UT.

Kim looks forward to having an open dialogue with the users group to learn more about our impressions of IBM, the challenges we face, and how IBM positions itself locally to provide solutions for our needs. Additionally she will cover some of the recent organizational changes within IBM and provide a perspective on Lou Gerstner's activities as the new Chairman of IBM and how these affect us locally.

MAY MEETING

During the May meeting, the elections were held. The new officers are: Alan Judson (Pres.), Steve Walker (VP), Kirk Nacey (Sec.), David Carpenter (Treasurer).

Mary Nickles spoke and gave us all some insight on broadcast news production. It was an excellent meeting, Mary was an outstanding speaker.

FROM THE BOARD

As a new board, we look forward to the coming year with excitement and anticipation. We express our appreciation to Max Thomas, Steve Walker, Alan Judson, and Dan True for their service to the group last year. We wish Max well in his new job. We look forward to their continued contributions this coming year. As your new board, our goals are to increase the involvement of others in the users group through committees and assignments to members in the group. We would also like to increase the participation in the Company Profile database that has been started. We feel that the monthly meetings should provide something that can be used and implemented by the members of the group. We will strive to provide timely and informative topics for the meetings. You will be seeing changes in the monthly newsletter. We are planning to get the newsletter out closer to the start of each month so that you can better plan your schedule. We intend to provide a schedule of upcoming topics. We solicit your

suggestions for topics and things that would provide help to you in your job or career. Together we can all make this an exciting, and profitable year for our users. We can all benefit from participation in the users group.

MEET THE BOARD

Alan V Judson

I have been in data processing for the last 25 years. I started working summers for Michigan Bank in Detroit, Michigan. I returned to BYU and got a job at DHI Computing Service in Provo. From there I moved to the Bank of American Fork.

I have worked mostly with IBM equipment, starting with the IBM 360 series. Then moving to the System 3, the 4300 and then to the AS/400. I am presently responsible for the systems type functions on the Banks AS/400, implementing a Novell network and installing and maintaining the PCs at the Bank.

Steve Walker

I was born and raised in Rexburg, Idaho. I Graduated from Ricks College with a major in drafting. I attended Brigham Young University, majoring in computer science and minoring in business management. I Graduated from University of Phoenix with a Bachelor of Science in Business Administration. I married Viola Taggart from Simi Valley, California, and moved to Utah. We have four children, two boys and two girls. I love to snow and water ski. I speak Spanish, tinker with cars and computers, and I enjoy spending time with my family. I have worked mostly on IBM computers, including System 3, 38, 370, 4300, and AS/400. I spent a few years working for an attorney, and for twelve years I worked with Bank of American Fork.. Currently, I'm a Senior programmer/analyst for Abbott Critical Care Systems.

Kirk Nacey

I am a native of Utah. I grew up in North Ogden. I graduated from the University of Utah. I work at Connectronix in the support and development departments. I am also responsible for the AS/400 and the S/36. I'm single. During the summer I am a river guide. During the winter I instruct skiing and snow boarding at Snow Basin. If there is a sport out there, I enjoy doing it!!

David B. Carpenter

I'm a native of Mississippi, but I grew up in the Salt Lake Valley. I graduated from Granger High School, and received my B.S. Degree from the University of Phoenix. I was heavily involved in the start-up of VECC (Valley Emergency Communications Center--Salt Lake County's 911 Center.) They have two B45 AS/400's of which I served as systems manager. Last December I accepted a position with Murray City Data processing, and enjoy my new work there. I and my wife, Dawn Ann are the proud parents of a new 3 month old baby boy (Bryan). Although spare time is rare now, I enjoy music, theater and the arts. I also like camping, hiking, 4-wheeling, and photography--especially in Southern Utah's Red-Rock country.

UP COMING EVENTS

July meeting will be Information on PC's.
