## APRIL

Our April meeting will be held **11:00 a.m.** Wednesday, April 13, 1994 at the **MURRAY CITY OFFICES 5025 S. STATE.**

Dave Halladay from Sherwood Digital Electronics will be presenting information about remote communication. He will discuss the different controllers (cluster controller, 5294, 5394, 5494, tokenring), the different physical connections (RS232, V.35, X.21), protocols (SDLC, X.25), host configuration, remote configuration, most common problems, and hints for smooth implementation. This is to be in a discussion format so bring your questions and answers. If you have remote devices or are going to connect remote devices in the future this is a meeting that you do not want to miss. See you there.

## ELECTIONS

Elections for new officers will be held in the May meeting. We will be taking nominations for officers at the April meeting. Please think about who to nominate or if you would like to run contact an officer.

## MARCH

IBM discussed the future directions of the AS-400. The AS-400 will be around for quite a few years. IBM is spending heavily on development. The new RISC processor will boost the productivity, usability and provide a virtually seamless upgrade path. This information came straight from IBM not from the grape vine. This was a meeting that everybody enjoyed. Thank you for attending.
